Ayer's Cherry Pectoral.

For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping

Cough, Bronchitis, Asthma,

and Consumption.

Probably never before in the whole history of

medicine has anything so widely and so deeply

penetrated the human system, as this excellent

remedy for pulmonary complaints. Through a

series of years, and among most of the races of

men it has risen higher and higher in its estima-

tion, and has become better known. Its uniform

character and power to cure the various affec-

tions of the lungs and throat, have made it known as a

reliable protector against them. While adapted to

milder forms of disease and to young children, it is

also given for the most effectual remedy in the

most severe cases of the throat and lungs. As a

protection against the disease, it is equally

valuable. It is a household remedy, and should

be kept on hand in every family, and indeed as it

is sometimes subject to colds and coughs, it

should be provided with this medicine for them.

Although subject to consumption is thought in-

curable, still great numbers of cases where the dis-

ease seemed settled, have been completely cured,

and the patient restored to sound health by the

use of this medicine. It is a household remedy,

and should be kept on hand in every family, and

indeed as it is sometimes subject to colds and

coughs, it should be provided with this medicine

for them.

The Reign of Terror.

The Florida Emigration Company in

Hamburg, a corporation commanding a

great deal of capital, has suspended op-

erations owing to the unfavorable re-

ports of the agents who were sent to

Florida to look at the country. They

represented society as much disturbed,

the native whites being restless and de-

fectant. Very unfavorable reports have

also been received in Hamburg from the

North German colonists who settled

some time ago in South Carolina. Most

of these colonists were so dissatisfied

with the country that they talked of

leaving the Palmetto State and settling

in the Northwest.

Around about South Danville, Ken-

tucky, there is a band of fellows of the

baser sort, who think it is becoming for

them to undertake to regulate society.

So these fellows, to the number of twenty

or thirty, went to the houses of a

couple of negro men recently in order

to regulate them by tying them up and

whipping them. We were told that the

negroes had a good name in the neigh-

borhood. They caught one of the ne-

groes, tied him, and told him they in-

tended to hang him. They went to the

other negro's cabin and demanded ex-

trance, which was refused. Then they

threatened to break down the door, when

the negro told them that if they did,

he would hurt some of them. They paid

no attention to the warning and forced

the door, and started to enter the house.

The first man that got in received a bal-

let in his body and fell dead. These-

one and one fell mortally wounded and

so did the third and fourth. The brave ne-

gro had fifteen shots, and he says he

made fourteen of them take effect. In

the confusion and darkness, both negroes

escaped, the heroic defender of his home

having received a shot in the

Republican Banner.

OFFICIAL PAPER OF THE CITY.

GREENCASTLE, IND.

WEDNESDAY, OCT. 23, 1868.

NATIONAL UNION REPUBLICAN

TICKET.

For President,

ULYSSES S. GRANT.

For Vice President,

SCHUYLER COLFAX.

If you want Peace,

If you want future prosperity,

If you want the price of Gold to fall,

If you want better times,

If you want to preserve the credit of the Nation,

If you want to make our Government respected at home and abroad,

If you wish to secure all men in "liberty and the pursuit of happiness,"

If you love loyalty and hate treason,

VOTE FOR GRANT AND COLFAX.

Correct Them.

All of the Poll Books and Tally

Papers furnished for the election from

Indianapolis are wrong, and should be

corrected so as to agree with the ticket in

his paper. The first name should al-

ways be written in full without fail. In

the Eleventh District, Robert S. Dwig-

gins should be substituted for Jasper

Packard, who has just been elected to

Congress, and cannot serve. We urge

upon all the importance of correcting

Poll Books and Tally Papers so as to

agree with tickets furnished in each

precinct in the County, immediately and

without fail.

Frauds in New York.

Immense naturalization frauds were

discovered in New York last week. It

appears that the Democrats of that city

have issued fraudulent naturalization

papers to the number of between 30,000

and 40,000, for the purpose of carrying

the State for Seymour. The parties en-

gaged in it have been arrested and are

now on trial. The bursting of this lit-

tle bubble is somewhat injurious to the

arrest-bag candidate for President.

West Virginia.

The result of the West Virginia elec-

tion is a splendid Republican victory.

That young State has declared by a de-

cided majority against the Democracy

and joins the unbroken Republican phal-

anx of the States that voted on the 13th.

The triumph is sweeping; we have car-

ried the State by about five thousand

majority, an unbroken Republican dele-

gation is returned to Congress, and the

legislature is overwhelmingly of the

same political faith. "Young Virginia,

ever true."

Look Out for Frauds.

At the State election, the Democrats

of this County printed and circulated a

number of spurious tickets, containing

the names of the Republican candi-

dates except Hannu, Gilmore and Coop-

er. Fortunately the fraud was discov-

ered in time to prevent any mischief

being done, but the circumstance fully

proves that the Democratic party of

Putnam County will resort to any means,

no matter how disreputable, to secure a

ctory. In the face of this fact, it be-

comes us to be on the alert. Copies of

the genuine ticket should be posted near

the places of voting.

Measures should be taken before the

polls are opened, to see that no spurious

tickets are on the ground.

Take tickets from none except reliable

union men.

If a bogus ticket is discovered, ac-

cuse, immediately, where it came from,

and lose no time in punishing the per-

petrator of the fraud to the full extent

of the law.

Before voting, see that your ticket

correctly corresponds with the follow-

ing, which is the corrected ticket sent out by

the Republican State Central Committee:

To the Polls!

The Democratic party is making a last desperate effort for supremacy in the Government. The result on the 13th inst., was a development of sufficient strength on their part to encourage them to renewed efforts for the final contest next month, and if there is any lagging on our part, if any of our voters fail to attend the election, the victory that is almost within our grasp, may wholly escape us.

The vote just cast in this State, over that of 1866, is 17,189. Of these votes, the gain to the Republicans has been 1,974, while the Democrats have received 15,215. This shows clearly that the legal votes were cast by the Democratic party. An increase of 17,000 votes in two years would show an increase in population of about \$5,000. No one believes that we have had this addition to our population during the past two years, and the large vote just given can only be accounted for by the Ku-Klux importations from Kentucky. And it is now a very general remark among the citizens of that State, that they made a mistake and did not send men enough. Next month, however, they will know the exact number required, and boldly assert that they will carry Indiana for Seymour and Blair. This makes our duty plain. We must carefully examine the Registry lists; we must see that all our men are ready for duty; the Republicans of each Township must work as though the whole result depended upon their efforts; they must go to the polls early, and remain until the last ballot is counted out; the sick and the negligent must be sent for, and fraudulent tickets must be guarded against.

Republicans, to your posts! Let us show that Indiana stands as immovable as the everlasting mountains, for Liberty, Union and Peace, and that the raids of Kentucky rebels can not prevail against her.

The Official Vote.

The table of election returns for the State, which we publish to-day, is copied from the Indianapolis Journal, and is incorrect. The entire official vote has been received by the Secretary of State, and the total vote for Governor and Lieutenant Governor is as follows:

FOR GOVERNOR.
Conrad Baker.....171,575
Thomas A. Hendricks.....170,614
Majority.....961
FOR LIEUTENANT GOVERNOR.
Will Cumbach.....171,711
A. P. Edgerton.....170,379
Majority.....1,332
The average majority on the State ticket is 1,242.

Our Danger.

There is great danger of over confidence on the part of Republicans as to the result of the November elections in this State. Within a few days Democratic leaders have been exceedingly busy. They are concocting a plan to buy enough votes to overcome Baker's small majority. They think that a change of five hundred Republican votes will do the work, and it will, the Democratic vote remaining the same as it was at the October election. Let us not be caught napping. Nothing but the closest vigilance and tireless exertion will answer to offset the schemes now on foot to defeat Grant in Indiana.

Peace, Peace.

Conversing a few days ago with a prominent and able lawyer of Cincinnati, a life-long and unflinching Democrat, and who has heretofore during the present Presidential canvass not been engaged in it, he stated very emphatically that he "now hoped Gen. Grant would be elected, as he thought he would, by an overwhelming majority, and give the country peace—as that it needed, and he most devoutly desired, as all good and true-minded men did, and which he had the greatest confidence that Gen. Grant had the ability and will to give to the country, above any of his time." He further stated, it was well known that Vallandigham and "such"—the Hamptons, Forests, and other rebel leaders—had dictated the New York platform and nominated the candidates in opposition to patriotic and consistent declarations of far better and safer men, and it was high time that all patriotic and well-meaning Democrats were looking about them to see where they were drifting to, and cease to follow the lead of Vallandigham and his school of destructionists, and be, for one, and thousands of others, would not do it.

The defeat of the Democracy in November will be mainly due to two causes: first, the plank incorporated into their platform by General Wade Hampton declaring the reconstruction laws and the State governments erected under them to be usurpations, unconstitutional, revolutionary, and void; and second, the nomination of General Blair upon the basis of his Broadhead letter, proclaiming that it will be the duty of the new President to use the army to overthrow these governments and to compel Congress to repeal the laws through which they were erected. The people will refuse to clothe with power a President who stands on such a platform, and a Vice President who wrote such a letter.

Beware.

From the Cincinnati Gazette.
Now is the time for the Grant clubs to show their strength, and put forth their utmost efforts. Now is the time when they can be available to Grant. Congress is safe—both Houses. The policy of Congress will be maintained, but now it remains to see whether Grant, who represents the loyal ideas of the war; who represents the Union cause; who is moderate, consistent, prudent, and patriotic, shall be elected; or whether a sympathizer with rebellion; a man who excited mobs in the time of the draft; who presided over the Chicago Convention, declaring the war "a failure," who is himself a weak man, and dangerous to the infirmities of his character—shall be elected to preside over this great nation? The very idea that such a man as Seymour, who is a man of no account, should startle every loyal citizen of his country from any sense of security. There is no security till you have put the last ballot in, and polled the last man of your available strength. Let every Grant club now arouse itself to action, and every War Democrat come forth to the battle. The War Democrats in New York have had a great meeting, the call for which was signed by Pierpont, Hoveymer, Nicol, Stebbins, and many other old-fashioned Democrats of New York. These men know Seymour and have read Blair's letter and the Democratic platform, and they know that there can be no peace and security for the country under the lead of such men and the declaration of such principles.

But you think the October elections make you safe. That is just what the Democrats want you to think. False security will defeat any army. How do you know what enormous frauds may not be committed in November? Have you looked at the details of the October elections and seen what was done? Do you believe the elections in Indiana were honest? If you do, take up the votes of Floyd, Clarke, Harrison, Dearborn, and Vanderburgh counties and all the Southern part of Indiana, and examine them. Then look at Vigo District and examine that. How many Kentucky voters do you think were put into Indiana? Then take a look at the naturalization frauds. See deputy clerks sent out with blank forms and naturalizations made which have not a pretense of legality. How do you know how much of this may be done on the 3d of November? It is true that there is no longer so much interest in doing it, since the election of members of Congress is over. But we can never know till the day of election is past what of fraud and delusion may take place. The Gazette of the 20th published the evidence of the naturalization frauds in Sandusky. They were open and barefaced. Till the law is amended by providing severe penalties (which we trust will be done at the next session of Congress), it is impossible to avoid these frauds. The papers state that in Philadelphia these fraudulent papers were issued by thousands. Fortunately they were discovered before the election, and the judges interfered so promptly that much of the mischief was avoided. We say, therefore, to all loyal, patriotic men—beware.

Since the election another thing has come up which demands the serious consideration of every man, whether he be Democrat or Republican. This is Blair's recent speech at St. Louis. We have always considered this man as a political mad. But in his St. Louis speech we are left in doubt whether he is an idiot or a fanatic. According to one report of his speech (that of his own friends), he says Grant will usurp all power, and not leave the Presidency. According to the other, he says, Grant will not leave the Presidential mansion alive! That is, he will be assassinated. His case is no better in one report than the other. According to the first, he assumes that nearly forty millions of free people, nine-tenths of whom are intelligent men, will quietly permit Grant to do what neither Washington or Jackson dared think of! According to the other, he invites some ruffian to imitate Booth, in assassinating a Republican President. The first is less criminal than the last, but most inconceivably silly. It is not merely an insult to Republicans, but to the whole body of Democrats. Now, we should like to know what would become of this country, if such a silly, foolish, intemperate man as this could be put at the head of this nation? And, how much better is Seymour? Hence, we say to every man, who reads these lines, in the language of the Roman Senator:

"Take care that the Republic suffers no detriment." Bring every loyal voter to the polls on the 3d of November, and make the majority for Grant so great and decisive as to clearly indicate the will of the Nation.

An Indianapolis letter says: No certificate of election has yet been issued to Mr. Julian in the Fourth District. Judge Reid claims his election on the section of the election law which declares that no vote shall be thrown out on account of informality or unfairness on the part of Judge or Inspectors. This would change the result, unless the votes themselves could be shown to be fraudulent.

The contest will probably have to be based finally upon fraudulent votes, instead of informality, but in that case there can be no doubt of the result being favorable to Mr. Julian. The Republican State Committee has been quietly arranging to secure the evidence of frauds in the various counties of the State, especially in the river counties, and will commence proceedings immediately, not only against the fraudulent voters themselves, but those who swore to their identity, or in any other way aided in the swindling. The rascals may look for some hot work before they get through.

The Indian War.

St. Louis, October 23.—A Hays City, Kansas, dispatch says, that Colonel Carpenter and Captain Graham, of the Tenth Cavalry, had an exciting brush with seven hundred Cheyennes and Arapahoes yesterday, at Buffalo station, sixty miles west of there. They killed nine Indians, and wounded thirty. Our loss was only three wounded. The soldiers fought desperately.

A large body of Indians, supposed to be those who fought Colonel Forsythe, are now killing buffalo two days march from Buffalo station, their squaws and children accompanying them. They are surrounded by the Fifth Cavalry, and a portion of the Twenty-eighth. Col-

onel Keag, Inspector General of the District, went out this morning. All the troops are on the move. It is thought that an attack will be made on Fort Dodge in a few days. Colonel Forsythe is improving rapidly, and will be able to move down in a few days.

A company of scouts left Hays City on the 10th, under command of Lieutenant Phipper, for the purpose of joining General Sheridan's staff, accompanied the expedition.

Attention Republicans.

The Democratic party made extraordinary exertions to carry the October elections and secure Ohio, Pennsylvania and Indiana as the strategic positions of the Presidential contest, and their defeat in this they admit to be a staggering blow; but if the Republicans suppose the battle won, and thereby relax their efforts, it will be a fatal mistake. While the elections that have taken place have shown that the victory is within our power, they have also shown to the enemy the measure of our strength, and how much additional force is necessary to bring in, to carry these States. And when this information is given to a party so desperate as the Democratic, which holds all means to be justifiable to achieve the end of an election, and which has such resources for recruiting voters, it makes increased vigilance and effort necessary on the part of the Republicans in order to secure the Presidential election.

We carried the State of Indiana by little more than a thousand majority. Kentucky lies along her Southern border, where the Democracy can spare fifty thousand voters. We have also seen that they have resorted to a wholesale system of fraudulent naturalization papers. Can we rationally suppose that an effort will not be made by the Democratic party to furnish from these two sources, or from Kentucky alone, the base votes to carry Indiana. Unquestionably the Republicans will poll a larger vote for Grant than they did in the State election, if they are not secure against these Democratic resources and this desperate purpose.

It is the habit of the Democratic mind to regard the defeat of that party in the elections as the overthrow of all the bonds of law. This leads them to regard lawless and desperate means as justifiable to recover their ascendancy. Consequently we have to anticipate the worst that is in their power. They have this great surplus of Democratic voters in Kentucky, bordering on the State of Indiana, which we saved by little more than a thousand majority, and on the State of Ohio, which we carried by between 17,000 and 18,000. Pennsylvania, which the Republicans carried by less than 10,000, has Virginia and Maryland along its Southern border, and we do not now need to be informed that the Democratic vote in those States is ready to go where the party calls.

Taking the October elections as the criterion, less than 30,000 votes would be required to change these three great States; not more than 11,000 to change Pennsylvania and Indiana, and put the Presidential election in doubt. We can not afford to lose one of them, and besides, we need the moral effect of a united North for the pacification of the country. They who talk of the victory being won, and of the Democratic party being routed and panic-stricken, are trying to make a victory out of an indecisive contest by the force of crowing. The preliminary firing has only developed the positions of the two armies; the great battle is yet to be fought. They who exult in the cry that the enemy are panic-stricken are foolishly leading our own soldiers to throw down their arms and relax their organization

Republican Banner.

Kentucky is to Spurn Again.

A well known resident of this city has given us the following account of what he heard in Louisville, concerning the designs of the copperheads of Kentucky to make another and more sweeping charge upon the ballot-boxes of Indiana than they made at the State election of October 13th. He states that at the dinner table of the Louisville Hotel, on Monday last, the rebel General Hood being one of the party, and a Colonel Evans, formerly of the rebel army, the principal talker, the latter remarked that Kentucky had sent 10,000 men into Indiana to vote for Mr. Hendricks, and that they could have sent more if they had supposed they would be needed, and now that they know the number requisite to carry Indiana for Seymour, they would send enough to accomplish that object. They could, he said, spare 30,000 men from Kentucky and then have enough left at home.

Our informant, who had before engaged in the conversation, at this point inquired of Col. E. how they could manage to vote so many Kentuckians in Indiana? He replied that there was no difficulty in doing it; that the men could be sent to Democratic precincts where the Judges of the Courts and the Magistrates are all Democrats; that if now and then one of their voters should be arrested, he would at the worst be fined but a small amount, and while the attention of Republicans would be diverted by the arrest and trial of the detected party, the rest of them would be doing their work at the ballot-box. "We intend," said he, "to carry Indiana for Seymour and Blair, at all hazards, and we will do it."

There seemed to be no concealment among Louisville Democrats of what they had done at our State election, or of their purposes in regard to the Presidential election, but the matter was freely talked of everywhere, as though perfectly legitimate.

An official of Floyd county, connected with the Sheriff's office, also gave some information relative to the guerrilla invasion of that county on the 13th. He said that many Kentuckians voted in Floyd, not generally in New Albany, but freely in the outshipments. At one precinct not far from New Albany, he said that more votes were cast than there were persons living in it, counting men, women and children.

We have every confidence in the gentleman from whom we derived this information, and do not question the information of the rebels of Kentucky to take this State by storm on November 3d, if it is within their power to do so.

We have defeated one rebel raid on our ballot-boxes, and if our friends come up to the work in their strength, we shall defeat the next. It is a sad commentary on the Democratic leaders of this State, that they would make themselves parties to a wholesale violation of our election laws; but they are no worse than the Democrats of Pennsylvania and New York, who are guilty of more but equally criminal frauds.

In fact, the Democratic party is little less than an organized conspiracy against the laws and against the peace and repose of society. Its annihilation will be a more beneficent victory for the country than the most brilliant triumph it has ever gained upon the battle-field, and we fondly hope that the third of November, 1863, will give the finishing blow to this party of corruption, infamy and crime.—*Indianapolis Journal.*

The Presidency.

The whole number of electoral votes to be cast at this election is 294. Necessary to a choice, 148. Since the late elections there is no room for doubt that Grant and Colfax will receive the following votes:

Maine.....	7	Minnesota.....	4
New Hampshire.....	5	Kansas.....	3
Vermont.....	3	Nebraska.....	3
Massachusetts.....	12	Nebraska.....	3
Rhode Island.....	4	Tennessee.....	10
Connecticut.....	6	Missouri.....	11
Pennsylvania.....	26	Arkansas.....	5
Ohio.....	21	Louisiana.....	7
Indiana.....	13	North Carolina.....	9
Illinois.....	16	South Carolina.....	9
Michigan.....	10	West Virginia.....	5
Wisconsin.....	8		
Iowa.....	6		

Total.....206

Seymour and Blair, if not withdrawn, are sure to receive the votes of Kentucky, 11, and Maryland, 7—total 18.

The following States are doubtful:

New York.....	33	Georgia.....	9
New Jersey.....	7	California.....	5
Delaware.....	3	Oregon.....	3
Alabama.....	6

The Earthquake Again.

San Francisco, October 23.—At a quarter past two o'clock this morning there was another severe earthquake shock, which sent people shrieking into the streets with terror. It is impossible to tell at present whether any more damage has been sustained by the shattered buildings, or lives lost. The streets were thronged with people in their night clothes, fearing to return to their houses. The weather was warm and sultry.

Three more accidents have been reported. The excitement has somewhat subsided since 2:15, but the people are still discussing the probable recurrence of a disaster similar to the one of the 21st.

SOMETHING FOR THE HOUR!

Marshall's Universal Portrait of

GENERAL U. S. GRANT,

is pronounced a perfect likeness of the General, in his best expression. As a work of art it is immeasurably superior to all others. Mrs. Grant says of it: "I am delighted with my splendid engraving of my husband. As a likeness, I do not think it could be better." Senator SUMNER pronounced it "a rare and finished work, excellent as a likeness." Mr. Bryant says: "It is really a noble specimen of the art of engraving, and appears to me to give the character of the original more perfectly than any engraving which I have seen." The Cincinnati Gazette says: "The subject of the picture and its intrinsic merits will gain for it a very extensive circulation." The Cincinnati Commercial says: "It is a great deal the best likeness we have ever seen of the General, giving his quiet, serious, resolute face better than it is done in a photograph. It is a work of art so excellent, of subject so distinguished, that we are at pains to give it this commendation."

This inimitable portrait is sold only by agents, and is now ready. Address:

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Incurable cases of Scrofula disease, where the system becomes saturated with corruption, have been purified and cured by it. Scrofula affections and humors, which were aggravated by the scrofulous contamination until the blood was radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this disease and its attendant evils, undermine the constitution, and involve the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it insinuates its influence throughout the body, and then, on some favorable occasion, rapidly develops into one or other of the following complaints: Eruptions on the skin, or foul eruptions on some part of the body. Humors in the blood. It is a great relief to the system, and a great relief to the system, and a great relief to the system.

BULL'S WORM DESTROYER.

To My United States and World-wide Readers.

I HAVE received many testimonials from professional and medical men, as my almanac and various publications have shown, all of which are genuine. The following letter from a highly-educated and popular physician in Georgia is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOVA, WALKER COUNTY, GA., June 29, 1865.

Dr. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished-for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy so recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine directly from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line of M.D.'s, but I see no just cause or good sense in discarding a remedy which we know to be efficacious, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured for himself the sole right to use that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, which purport to cure all manner of diseases, and which do nothing but ruin. Please reply soon, and inform me of your best terms.

I am, sir, most respectfully,

JULIUS P. CLEMENT, M.D.

BULL'S SARSAPARILLA.

A Good Reason for the Captain's Faith.

Read the Captain's Letter and the Letter from his Mother.

Benton Barracks, Mo., April 30th, 1865.

Dr. J. C. Ayer—Dear Sir: Knowing the efficacy of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded about two years ago—was taken prisoner and confined for sixteen months. Being moved so often my wounds have not healed yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist me. I have more faith in your Sarsaparilla than in anything else. I wish that it were genuine. Please express me half a dozen bottles, and oblige.

CAPT. C. P. JOHNSON.

St. Louis, Mo.

P. S.—The following was written April 30, 1865, by Mrs. Jennie Johnson, mother of Captain Johnson.

Dr. BULL—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhea and scrofula, for which I gave him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio, and Iowa, for scrofula, fever sores, and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to gain health and recover to your Sarsaparilla. He is fearful of getting a scrofula article, hence I write you for it. His wounds were terrible, but I believe he will recover.

Respectfully, JENNIE JOHNSON.
